

# NURULLA IBADOV

Software Engineer | Full-Stack Developer

ibadnurulla@gmail.com · Baku, Azerbaijan · [linkedin.com/in/nurulla-ibadov-7971732a5](https://www.linkedin.com/in/nurulla-ibadov-7971732a5) · [github.com/nurullaibadov](https://github.com/nurullaibadov)

## PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience delivering scalable, production-grade web applications across the full stack. Core expertise in React, Next.js, Node.js, Nest.js, TypeScript, and ASP.NET Core, with hands-on experience in cloud infrastructure (Docker, Azure) and CI/CD pipelines. Proven track record of owning features from architecture through deployment in fast-paced cross-functional agile teams. Strong background in security testing, performance optimisation, and reusable component design. Pursuing B.Sc. in Information Technology at Azerbaijan Technical University (expected June 2026).

## TECHNICAL SKILLS

Languages	JavaScript (ES2023+), TypeScript, C#, Java, Python, HTML5, CSS3
Frontend	React, Next.js, Nuxt.js, Angular, Tailwind CSS, Redux
Backend	Node.js, Nest.js, ASP.NET Core, Spring Boot, REST API
Databases	PostgreSQL, MySQL, SQL Server, SQLite, MongoDB
DevOps & Cloud	Docker, Azure, GitHub Actions, CI/CD, Git, Render, Railway, cPanel
Security	Nmap, Wireshark, OWASP Top 10, SQL Injection Testing

## PROFESSIONAL EXPERIENCE

### Digital Developer | Qwasar Silicon Valley

January 2026 – Present

Baku, Azerbaijan

- Develop and own full-stack web features using TypeScript, React, and REST APIs — from technical design through production deployment.
- Improve digital campaign performance through structured A/B testing and analytics, translating data into actionable product decisions.
- Work in cross-functional agile sprints with product, design, and backend engineers to scope and deliver high-quality features on schedule.
- Metro Hackathon (Baku): Led a 3-person engineering team to design, build, and deploy a real-time transit information platform in 24 hours — recognised for technical execution and UX quality.

### Cyber Security Engineer Intern | Bakcell

November 2025 – December 2025

Baku, Azerbaijan

- Conducted network traffic analysis using Wireshark and infrastructure vulnerability assessments using Nmap across production systems; delivered a prioritised risk report to senior engineers.
- Performed SQL injection and OWASP Top 10 security testing on external-facing web applications, documenting exploitable endpoints and recommended mitigations.
- Supported the IT security team in remediating vulnerabilities and updating incident-response runbooks, contributing to faster triage and improved security posture.

### Frontend Developer | Vivisolis

April 2024 – June 2025

Baku, Azerbaijan

- ▶ Delivered 10+ production features in React, Next.js, and Nuxt.js; reduced initial page load time through code-splitting and lazy loading.
- ▶ Integrated multiple third-party REST APIs and managed application state with Redux, enabling new product workflows with zero regression on existing features.
- ▶ Built a shared Tailwind CSS component library adopted across the product, reducing UI inconsistency and cutting onboarding time for new engineers.
- ▶ Established a cross-browser QA checklist (Chrome, Firefox, Safari, Edge) that standardised testing and measurably reduced reported visual defects.

## Frontend Developer | [Jet Academy](#)

November 2023 – February 2024

Baku, Azerbaijan

- ▶ Built interactive student-facing dashboards in React and Angular featuring real-time data visualisation and fully responsive layouts.
- ▶ Extracted and documented a reusable component toolkit adopted across three projects, eliminating duplication and accelerating feature delivery.
- ▶ Contributed to code reviews with a consistent focus on accessibility, performance, and coding standards — improving overall merge quality.

## EDUCATION

---

### B.Sc. in Information Technology | [Azerbaijan Technical University](#)

Sep 2022 – Jun 2026 (Expected)

- ▶ Relevant coursework: Data Structures & Algorithms, Network Security, Database Systems, Software Engineering, Web Development.
- ▶ Completed internships at IT firms working directly with senior engineers on live production codebases.

### High Honor Certificate — Backend Development | [Code Academy](#)

Sep 2023 – Jan 2024

- ▶ Graduated top of cohort; led team project to build and deploy a REST API platform with full Git-based CI/CD integration.

## CERTIFICATIONS

---

- ▶ Introduction to Full-Stack Development — Qwasar Silicon Valley | November 2025
- ▶ Introduction to Software Engineering — Qwasar Silicon Valley | December 2025

## HACKATHONS & COMPETITIONS

---

- ▶ Metro Hackathon, Baku — Team Lead: Led 3-person team to build a real-time Baku Metro transit platform in 24 hours. Handled full-stack architecture, REST API design, and cloud deployment. Recognised for technical execution and user experience quality.
